Word search - more about badgers

Clue words:

Badger : Britain's largest carnivore

Barley : badgers don't just eat earthworms; they will also eat fruit, berries, oats and barley

Bedding : badgers drag dried plant material into their setts to make a cosy bed

Bee : badgers also like to eat bees

Brock : old English word for 'badger'

Claw : badgers have long claws to help with their digging

Deciduous : most badger setts are found in deciduous woodland

Foraging : badgers go out foraging every night looking for food

Latrine : a place where badgers dig a small dip for their droppings

Meles meles : the Latin word for badger

Moonlight : your best chance to see a badger is on a moonlit night

Night : badgers are nocturnal and so usually come out at night

Owl : another nocturnal animal

Root : badgers are clever and use tree roots to help support their sett structures so they don't collapse

Snuffleholes : holes in the ground created by badgers when they are digging for earthworms

Spoilheap : you will see big piles of soil outside an active sett. This is the soil that the badgers have dug out of the ground to create their tunnels and chambers

Sweetcorn : a badger delicacy. They drag sweetcorn husks back to woodland to eat closer to their setts

Tunnels : a sett is a network of tunnels and chambers

Wasps : yet another badger delicacy
